# Penetrating Sealer – Your Best Protection Against Stains

Protect your Stone Investment or risk expensive stain repairs later!

All stone is porous and should be sealed to reduce the risk of staining. Failure to seal may result in unsightly color stains or dark oil spots. This is particularly important around cooking surfaces as well as drink and meal service surfaces (tables, bars, and counters) and vanities.

MARBLELIFE Impregnator Sealer is formulated to seal open pores without altering the stone's color or finish. Surfaces are available for light use within hours of application and can withstand normal cleaner use within 2 days of application.

# Stone Enhancer – For a Permanent Wet Rich Appearance

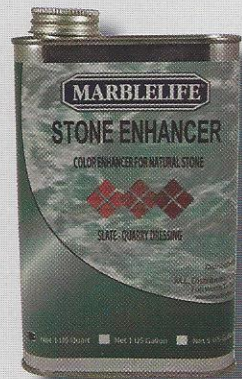

Stone looking faded? Want to boost your stone's sheen?

**COLOR ENHANCEMENT:** MARBLELIFE's Stone Enhancer enables you to restore a rich color to your worn stone or matte finish surface with a single application without altering gloss. Excellent option for tumbled stone, flamed stoned, or natural surfaces.

**SHEEN ENHANCEMENT:** Seeking to boost your tumbled, flamed or natural stone surface's shine & luster? Stone Enhancer treatments can elevate sheen from a matte or semi-gloss finish to a gloss finish.

Suitable for use on all interior stone surfaces

*For best results consult your local MARBLELIFE trained & certified stone craftsman.*

# Interlok – Durable Color & Sheen Enhancement

**COLOR ENHANCEMENT:** MARBLELIFE's INTERLOK provides a rich durable color to your flamed granite, slate, brick, quarry, or flagstone surfaces.

**SHEEN ENHANCEMENT:** Seeking to boost your tumbled, flamed or natural stone surface's shine and luster? INTERLOK can elevate sheen from a matte or semi-gloss finish to a gloss finish. Suitable for use on interior and exterior stone surfaces.

**TOPICAL SEAL:** Provides an excellent topical seal to maintain stone appearance.

Suitable for use on:

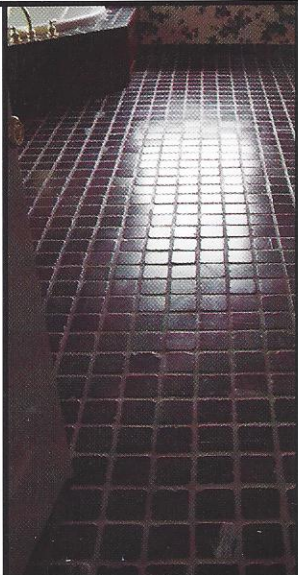

- Flamed Granite
- Slate
- Flagstone
- Brick
- Quarry Tile

\*Not suitable for limestone marble, travertine, terrazzo, or salturnia.
