

Still WAXING your VINYL?

How non-green of you!

And your bottomline...

MARBLELIFE® Vinylguard™

1. Durable semi-permanent coating reduces maintenance labor
2. No-need to periodically buff - reducing labor costs
3. Will not scuff
4. Engineered to provide an optimal 0.7 static coefficient of friction. Safer for your tenants and your legal slip-and-fall mitigation expenses.
5. No-need to strip and re-apply - reducing waste, labor costs and tenant disruption
6. Reduces total costs by 30-40% annually versus waxing

Greener for the environment AND your bottomline.
